

PRODUCT DATA SHEET

GEM

MANUAL CONCENTRATED DISHWASHING LIQUID AND GENERAL CLEANER

High Performance Formulation:

GEM is a viscous concentrated liquid which lift a wide variety of soil loads, making cleaning jobs easier. A little **GEM** goes a long way to bring high performance washing results to dishes, pots and pans.

High Sudding:

GEM's high sudding formulation boosts soil and grease removal for more effective manual dishwashing results. Less scrubbing is needed as **GEM's** active ingredients are very efficient.

Gentle on hands:

GEM's neutral pH supplemented by its special ingredients helps to prevent chapping of hands and promotes softness.

Multi-use Cleaner:

GEM is a versatile effective cleaner. Use **GEM** for your general cleaning needs: counters, walls; floors, kitchen equipment as well as kitchen surfaces. **GEM's** range of applications from dishwashing to general cleaning to heavy duty hand degreasing proves to be a most practical product.

A Concentrated Product:

GEM is a highly concentrated dishwashing liquid and general cleaner which exceeds the specifications of the Trinidad and Tobago Bureau of Standards, providing excellent results in a variety of applications

Consult your CHEM CLEAN Specialist for specific use directions.

GENERAL USE DIRECTIONS:

All purpose Cleaning: Dilute GEM in water for all general cleaning needs. For use on all kitchen surfaces such as walls, floors, counters and equipment, mix 1 oz to 5 gallons of water.

Manual Dishwashing: For glasses, dishes and flatware, mix 1 oz to 4 gallons of water. For pots and pans, use 1 oz. to 3 gallons of water.
